

# ERLING

## FUEL SYSTEM CONSTRUCTION

Erling's Construction team is TCEQ A/B licensed, OSHA certified, and ready to make sure your construction projects are a success. Our team is vendor trained and certified in the manufacturers we represent, with over 30 years experience in the fuel system construction industry.

Our retail fueling installation expertise in new site construction includes UST installation, piping layouts, fuel area paving, dispenser installation, coordination of canopy construction and tilt wall car washes. We are capable of removing a fuel system, remediating, and rebuilding a new site while reducing the impact to the store customer base.

We are also skilled in commercial fueling installation projects include industrial applications such as AST installations, fleet POS systems, DEF systems, and generator back up fuel system installations.

Our crews can help prepare a decommissioned site for sale, including site closeouts with TCEQ, remove leaking tanks to minimize site impact, removal of unused storage tanks, and soil remediation.

### WHAT WE DO...

Retail Fueling

Commercial Fueling

Car Wash

UST Removals

### WE ARE...

✓ TCEQ A/B Licensed & OSHA certified

✓ Proud to host an In-house Safety Program

✓ Vendor Trained/Certified
